

Activities with Anna and Violet

Activity: Binoculars

Use cardboard tubes to view the world through binoculars! You can bring your binoculars on future “journeys”. Binoculars may be used with our [Journeys@Home](#) as well. We cannot wait to see you next time!

THE TOOLS YOU’LL NEED

- Two Cardboard Tubes
- Tacky Glue or Tape
- Stickers
- Markers or Tempera Sticks

Step 1

Glue or tape your two cardboard tubes together. If you used glue, wait for it to dry overnight.

Step 2

Decorate your binoculars as desired. You can use markers, quick dry tempera sticks, tape, or stickers.

Step 3

Take your binoculars and go explore!

**Make sure to bring your binoculars
on future explorations with
Anna and Violet!**
