

Activity: Nature Journal

Make your very own souvenir!

Paper, a hole punch, and string or yarn are all you need to create your very own nature journal. When you are unable to take souvenirs from a place, collect your thoughts and drawings in a nature journal.

THE TOOLS YOU'LL NEED

- 10-6"x9" Sheets of Toned Paper
- Hole Punch
- 30" Length of Yarn, Ribbon, or String
- Stickers (Optional)
- Markers or Colored Pencils (Optional)

Step 1
Stack the sheets of paper together and fold them in half.

Step 2
Using the hole punch, punch a hole in the top and bottom of the sheets of paper. Make sure to center the hole punch over the fold-line.

Step 3
Thread the length of yarn through the holes of the paper, making sure the ends are together on one side. To secure, tie a knot close to the paper.

Step 4
Tie an extra knot at the ends of your string to make a loop. This will allow you to hold the journal on your wrist.

Step 5 (optional)
Decorate your cover however you would like. Use stickers, draw a picture, or write your name. Whatever you decide is up to you!

Step 6
Now you can go off on an adventure and create your own nature journal souvenir!
